Precipitation probability					
70%	20%	30%	60%	70%	70%

Forecast for Tuesday 13 Oct 2020

Weather: A rather cloudy start to the day with frequent showers, some heavy at times. The showers will become few and far between during the morning however, another period of rain will affect the park during the afternoon. The rain will be initially heavy though easing and followed by outbreaks of drizzle.

Chance of cloud free mountain/hill tops above 600m: Generally 30% with cloud bases between 400-600m, falling to 10% later in the afternoon, with cloud as low as 300m.

Visibility: Poor in and around any showers, with neighbouring hills often obscured by cloud. Improving slightly during the morning but deteriorating further in the afternoon.
